Subject: FW: Guinea - supplies status

Hi Brian,

Please see attached for MB supplies that are either in-country (Guinea), on their way (to Guinea and Sierra Leone), or have been stopped. I think we should discuss how to divide these up. It also allows us to assess what supplies are going to be needed to restart sampling. I'm hoping to get an in-country assessment of what is available soon to add to this list. Also – I heard that there is a lot of Trizol that is expiring soon so we may want to transfer that to a country that is sampling soon...more for discussion.

IN-COUNTRY
Guinea Inventory 02June2017

IN PROGRESS
1020908 Amex: 2/3 pallets received; 1 pallet in transit
1022406 Amex: large and extra-large traps in transit to Sierra Leone, to be split between the two countries (the numbers we had for the split previously may be changed according to revised work plans?)

STOPPED
PO Guinea013 TS Pharm: stopped
Forestry Suppliers order: stopped

Subject: FW: Guinea - supplies status

Hi Corina,

Dana put together an excellent summary of the supply situation for Guinea (see below). We still have to pay the invoices as we wait until the goods arrive before we pay. Please note the invoice and shipment of traps will be split between Sierra Leone and Guinea. We are shipping them all to Sierra Leone to save money and will drive them to the border (or send them with someone) when they arrive.

Goods in transit should be there in the next couple of weeks.

Thanks!
Beth
